

## Questions to Ask When Choosing an Abortion Provider

Deciding about an unplanned pregnancy is hard and requires thoughtful consideration. Prioritizing your health and future is essential.

You have the right to access safe and reliable healthcare. These questions are intended to help you evaluate abortion providers and ensure that the clinic and medical staff comply with state regulations. We recommend you gather this information before scheduling an appointment.

- What is the name of the provider performing the abortion?
- Is he/she licensed and insured in Michigan?
- What procedures are available to me in your clinic?
- Will all the procedures and risks be explained to me?
- Will I be able to view an ultrasound and ask the provider questions before the procedure is performed?
- What is the full cost of the procedure?
- Will I receive any medication? If so, is there an extra cost?
- Will I be awake during the procedure?
- Is the procedure painful?
- How long will I be at your facility on the day of the procedure?
- What type of care will be needed at home?
- Will I be able to bring a support person with me to my appointment?
- Can I go to work/school that day?
- Will I need a follow-up appointment? If so, is that included in the cost?
- When is the money due for the procedure and what form of payment is accepted?
- If payment is due beforehand, what is your cancellation and refund policy?
- If the pills do not result in complete abortion, will I need to pay for a surgical procedure?
- If complications occur, will the abortion provider handle the follow-up care?
- If there is a significant complication with my surgical procedure, what is the protocol?
- If hospital care is needed, will the abortion provider handle the follow-up care?
